

NXG G2+ TIME CLOCK

The next generation in robust and flexible time collection with true plug and play installation.

The NXG G2+ provides the power and capability to meet an employer's needs. The user interface and touch screen will engage employees, shorten the learning curve and reduce data input errors. Automatically maintained validation tables will ensure only correct data is collected, improving payroll and labor cost accuracy.

Time clocks should make collection of attendance and labor data easy, not create more work. The NXG G2+ does exactly that with an engaging and intuitive user interface, full color capacitive touch screen and touch keypad.

Designed and assembled in the U.S.

With the NXG G2+ Employees Can:

- Punch in/out for their shifts, breaks and meals
- Schedule restrictions prevent employees from punching outside of their scheduled times
- Optional minimum meal break restrictions can ensure compliance to state laws or company policies
- Change department and job assignments
- Enter tips and other disbursements
- View schedule for today, or up to four schedule blocks
- View punches for today
- Supervisors can override schedule and meal restrictions
- Supervisors can insert missing punches

Clock Specifications/Features:

- 4.3" color touch screen
- Backlit keypad
- Supports all badge formats: bar code, magnetic or proximity, as well as biometric
- Supports Ethernet, Cellular and WiFi communications.
- Has two relays: one for door control, one for bell buzzer. Schedule up to 32 relay events.
- Punches can be saved to USB flash drive
- Supports quick punch, in/out, meal/break in/out, along with restricting punches to an approved list of jobs/tasks
- Supports schedule lockout

The NXG G2+ was designed by iSolved specifically to integrate seamlessly with iSolved Time, iSolved TimeForce and TimeForce II!
